South West Coast Path: South Devon

The South West Coast Path is England’s longest waymarked long-distance footpath and a National Trail. Our South Devon holidays let you explore sections of the Jurassic Coast where you can even have a go at fossil hunting. The footpath takes in tiny fishing villages, rocky headlands, lively resorts and golden surf-washed beaches.

The area is full of interesting flora and fauna. You may even see dolphins and seals if you’re lucky.

Walking from Exmouth to Lyme Regis you pass through some idyllic coastal villages with the most rewarding views from clifftops and over the coastline.
Why do this walk?

• Walk along the Jurassic Coast, England’s first World Heritage Site.
• Spectacular clifftop walking between idyllic sandy beaches.
• Unspoilt countryside with abundant wildlife.
• Explore the history of Devon.
• Stay in delightful seaside towns and old fishing villages.

Essential Info

Length 4 – 5 nights
Full Route Length 30 miles / 48 km

Grade

Moderate

Grades - This is not a technically difficult walk and should be easy to tackle for most reasonably fit people

Terrain - The paths are good, and there are no major route finding challenges.

What’s it like underfoot? Generally good paths and tracks, although a few sections can get muddy after heavy rain.

How much up & down? More than you’d think! Although you never reach more than 400m above sea level (and most of the time not more than 200m) there are many short steep sections. Most days involve ascents of 200-400m metres, although no section is very steep for very long.

Signposting: Good – the path is well waymarked.

Navigation: Pretty straightforward – good signposting, and generally well defined tracks.

Weather: You may be lucky enough to encounter warm, dry weather over the whole route and enjoy dry paths and tremendous views, but you must be prepared because the weather can change quickly. Good clothing and waterproofs are essential, but don’t forget you sunhat, sunblock and shorts!

Route

Exmouth to Sidmouth
The start of the Jurassic Coast World Heritage Site. The walk starts at a leisurely pace along the Exmouth seafront, the longest in Devon, but before long the going gets tougher as you climb to Orcombe Point where the Geoneedle Monument marks the start of the Jurassic Coast. The route is strenuous at times but you are rewarded with beautiful views from the clifftops across to West Down Beacon and over to Brandy Head, not to mention the marvellous sea stacks at Ladram Bay. Budleigh Salterton is almost halfway between Exmouth and Sidmouth and is a great spot for lunch. You leave Budleigh Salterton along the promenade, passing through the saltmarsh habitat of Otter Estuary Nature Reserve before being confronted with two threatening sounding cliffs: Danger Point and Black Head, but don’t worry as neither are particularly steep! The trail continues with only one strenuous climb just before you reach Sidmouth

Sidmouth to Beer
Charming fishing villages, wildflowers and clifftops. As you leave Sidmouth, a steep climb up Salcombe Hill Cliff (500ft) offers a taste of what is ahead, with plenty of
ascent and descent as you make your way along the cliffs to Branscombe Mouth. The views back along the South Devon Coast and the red cliffs towards Dorset ahead of you offer ample reward, along with a whole variety of flora and fauna. If you’re lucky you might spot a green woodpecker at Lincombe and the wildflowers and butterflies at Weston are a delight. The terrain becomes less strenuous after Branscombe Mouth, passing under Hooken Cliffs before climbing again to Beer Head, with some lovely cliff top walking to finish the day as you approach the quaint fishing village of Beer.

Beer to Lyme Regis
A unique wilderness. This section of the walk has a very different feel to the others on the route. Leaving the pretty fishing village of Beer, the trail leads you to Seaton, a delightful village with a selection of shops to stock up on lunch supplies. After, comes the only real climb on this day’s walk onto Haver Cliff before you enter the incredible Undercliffs National Nature Reserve. Formed from landslips, this wooded wilderness is home to an array of wildlife making it a nature lover’s paradise. The terrain can be tricky under foot and the 5 mile stretch can take 3-4 hours to complete as you make the most of the unique surroundings. Leaving the reserve the trail descends into Lyme Regis, often called ‘The Pearl of Dorset’, with an attractive harbour, shops and restaurants. With rocks from the Jurassic, Triassic and Cretaceous periods exposed, this stretch of the coast is fascinating for anyone interested in geology and there are several museums in Lyme Regis worthy of a visit.

Additional Days
We can arrange extra nights at any of the overnight stops, allowing for rest days, or giving you more time to explore the locality. We recommend Sidmouth and Lyme Regis:

Sidmouth
The famous poet John Betjeman whose work was inspired by Sidmouth once described the town as “A town caught still in a timeless charm”. The town itself is a wonderful place to explore and relax in after a day’s walk. Sidmouth lies on the Jurassic Coast and the coastline is dominated by the rich red sandstone cliffs which dates back to the Triassic period.

Lyme Regis
A rest day in Lyme Regis is a must as the scenery is breath-taking in any weather. Its historic Cobb and harbour are iconic to the area. Lyme Regis is home to a number of historical landmarks and education attractions. If you have the time to add a rest day on your holiday Lyme Regis is a great spot to explore!
